

ATTENTION AMERICANS

**NOW IS THE TIME FOR ALL
PATRIOTIC AMERICANS TO UNITE
IN THE NAME OF LIBERTY!**

Current militia members consist of regular people, professionals, doctors, EMTs, self-employed people, un-employed people and every shape and form of just plain people.

There is no discrimination in the militia. Our goal is to secure the freedom of the state.

Anyone interested in a different agenda, need not respond to this call to duty.

Dear Friend: The U.S. Free Militia is currently recruiting loyal, patriotic Americans for service to their country as members of our organization. We are looking for leaders. Men capable of organizing local county units. We need men in every county in every state in the Union. Our members come from all walks of life...doctors, paramedics, business owners, professionals, and many other every day Americans. All of these good and honest citizens have the same goals. They want to protect the U.S. Constitution, the Bill of Rights, our unalienable rights, and the American way of life. All of these are under attack today by the very people we voted into public office! From the President downward including the Congress and the Senate, there are many public servants working feverishly to destroy our FREE AMERICA! We must unite, even more than by just voting. We cannot vote enough of them out of office at one time to make a difference. We need a general overhaul of the federal government. Most of the functions of the many bureaucracies can be either eliminated or turned over to the states. Today, just as it always has been, our great Constitution is valid and timely in its protection of our rights. The biggest problem today is too many laws are being passed by the legislature infringing upon our rights. The U.S. Free Militia will become a major player in the nation pressing upon Washington the need to return to Constitutional government. If by no other means, our mere membership numbers will be a force to reckon with. If we obtain only 500 members per each county in each state nationwide, we will have a force of more than several million! That would be an organization to have to listen to. Our civilian militia would be the largest standing militia in the world! Your membership will help. If you already belong to a militia unit you may wish to join our united organization. By uniting, we can become the civilian force behind change in this great country of ours. Change for Constitutional government. Freedom for Americans, like it use to be. We were free once. During my life time I have seen this great country go down the tube. Washington is like a cancer. It serves only itself at our cost.

THE UNITED STATES FREE MILITIA KNOWS IT IS PARAMOUNT TO.....

STICK TO YOUR GUNS!

**THE FIGHT TO PRESERVE THE RIGHT TO KEEP AND BEAR ARMS
MUST BE BASED ON THE FOLLOWING BASIC FACTS:**

1. The right to keep and bear arms is **God-given**. The Declaration of Independence proclaims as a "self-evident" truth that "all Men ... are endowed by their Creator with certain unalienable rights." Many of those rights, including the right to keep and bear arms, were later listed in the Bill of Rights to the U.S. Constitution. God-given rights, of course, should not be qualified or interpreted out of existence by anyone, government included.

2. The right to keep and bear arms **supplies the basis for the retention of all the other rights: to speak, publish, practice religion, etc.** Men who do not have the ability to take up arms to defend their rights will soon find they have no rights. Privately owned weapons are indeed the ultimate authority. Having the right to possess them protects the rights to speak, publish, etc.

3. The main purpose of the Second Amendment has always been to enable citizens to protect themselves from governments. The Second Amendment was not promulgated in the interests of hunters, sportsmen, or target shooters. It guarantees the right of every citizen to be armed, not just those who use their weapons for leisure purposes.

SOME EXPERT OPINIONS

Lenin called for "the disarming of the bourgeoisie" (middle class).

Stalin said: "If the opposition... refuses to disarm, we shall disarm it ourselves."

Hitler required gun permits for all but Nazi officials. The German people were disarmed and were unable to oppose the Nazis.

4. The Second Amendment does not guarantee the right of an organized militia to be armed; it guarantees the God-given right of "the people" to keep and bear arms. In 1788, the primary author of the Bill of Rights, George Mason, defined militia as "the whole people except a few public officials." Attempts to interpret the Second Amendment to refer to anything but the right of each able-bodied citizen are completely fraudulent.

5. Mandating a waiting period before a person may purchase a handgun will not deter criminals but will adversely affect the rights of law-abiding citizens. Women anxious to defend themselves in the face of a killer on the loose — such as the one who recently claimed several victims at the University of Florida — should not be forced to wait seven days, or even seven hours, to purchase a weapon.

6. A government that fears weapons in the hands of law-abiding citizens is itself to be feared. Even registration of weapons should be opposed. When Hitler's army invaded Holland, where gun registration had been mandated by Dutch authorities, the Nazi forces simply gathered up the registration lists and then gathered up the guns.

WHAT WILL THESE BILLS COST YOU? IT *COULD* COST YOU YOUR FREEDOM.

H.R. 2580 - "The Right To A Republican Government"

Authored by Rep. Charles Schumer, this bill is acquiring sponsors at a record rate! This proposal makes it illegal for a citizen to talk to a federal employee in a manner contrary to current government policy...Mr. Schumer, we won't stand for this kind of First Amendment slap!

H.R. 1617 - "National Employment Act"

This infringement upon our freedom calls for a national employment bureau and a national worker ID card for all citizens 16 and older. There is no Constitutional authority for this! It is in direct violation of the 4th and 10th amendments!! (Note: This rubbish has passed the House and Senate and is currently in conference...)

H.R. 1544 - "The Anti-Paramilitary Act"

This bill prohibits the formation of paramilitary groups or organizations. This obviously contradicts the 2nd AMENDMENT! Could it be that the elite actually fear freedom-loving Americans?

H.R., 666 - ("The Beast Bill")

This bill has passed the House and the Senate. Evidence that is Illegally seized will be accepted into court proceedings, providing the agent or officer shows "good faith". If signed into law, H.R. 666 will legalize house-to-house search and seizures.

And finally, the most insidious, the most tyrannical, and dictatorial law ever proposed in this free land:

H.R. 1710 - "The Counter Terrorist Act of 1995"

1) The President can determine what persons or groups are "terrorists" at his discretion and that determination is unappealable. It is clear that any "politically incorrect" conservative group, from pro-lifers, to militias, from Christian right activists, to pro-gun groups, can be labeled "terrorists"

2) Accused "terrorists" can be held without bail for long periods, without trial. It reverses the presumption of innocence. They can be sentenced to 10 years minimum mandatory sentences, with no possible parole or probation, even for minor offenses.

3) It suspends the Posse Comitatus Act, which prevents the U.S. military from being used against the civilian population. Under this bill, the Army, Navy, or Air Force can be used against the civilian population....

USFM P.O. Box 294 Millersburg, PA.

4) The FBI, the military, and other federal government agencies will be given carte blanche (indeed encouraged) to investigate and infiltrate any "suspect" groups (as Newt Gingrich advocated) at will. This means any "politically incorrect" groups Pro-life, Christian Right, Militia, Pro-gun, conservative talk show hosts, collectively called "hate groups" can expect to have the FBI, and other government agencies opening their mail, tapping their phone lines, infiltrating their groups, spying on them and trying to entrap them into breaking some law so they can arrest and jail them under "Terrorism Laws".

5) It outlaws the caching (hoarding) of anything that could support terrorism! This includes money, weapons, communications equipment, food, and shelter.

6) It provides the federal government with extended powers to tap phone conversations, faxes, and computer communications, monitor credit card transactions, bank records, hotel and travel records, etc. (Isn't this what the GESTAPO and KGB are known for?) This will be the end privacy and freedom as we know it!!

7) It forbids fund raising by organizations that the President deems to be "Terrorists". (This could be the NRA, JFPO, Operation Rescue, Gun Owners of America, etc.)

8) This law creates an across-the-board "conspiracy" crime for violation of virtually any firearms provision of federal law, including simple paperwork and technical violations. It would remove the "overt act" requirement, which is currently a prerequisite for conspiracy under federal law, and would punish "conspiracy" at the same level as if the crime had actually been committed!

The status of this ominous legislation is truly frightening!! It has already passed the Senate as S.735, and was sponsored by presidential candidate Bob Dole, and passed by a 91-8 vote. It now rests in the hand of Herr Gingrich, to be voted on as he sees fit. The projected vote is close...If ever there was a time to let your congressman or woman know how you feel.....THIS IS IT!!! If this bill is signed into law, it could bring our troubled nation to the brink of war!

Dear Fellow Americans-
If you cannot read the writing on walls, try reading it on this page again. What will it take to wake you up? Another WACO in your home town.
